TD Securities

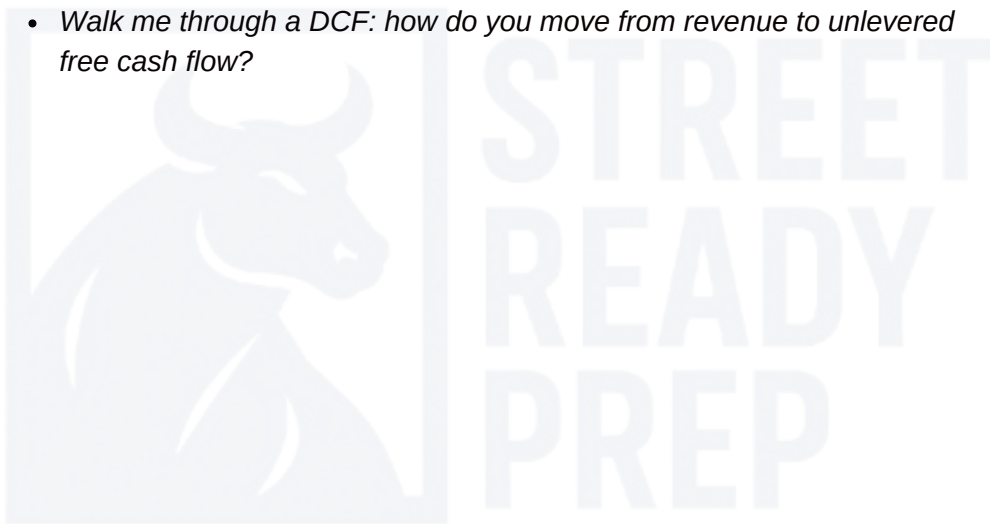

Investment Banking Analyst Summer Analyst (Oil and Gas)

1st Round

- *Walk me through your resume.*
- *Why TD Securities?*
- *Why investment banking instead of buy-side roles or other industries like energy trading/software?*
- *What's some constructive feedback you've received in the past?*
- *How do global events (e.g., Russia/Ukraine conflict) impact Canadian oil prices even though we export very little overseas?*
- *Should the U.S. join OPEC? Give pros and cons.*
- *Why might two E&P companies with the same BOE/D production trade at different multiples?*
- *Walk me through a merger model.*
- *If Company A (P/CF of 8×) acquires Company B (P/CF of 6×), what's your first observation? Is the deal accretive/dilutive?*

2nd Round

- *Tell me about yourself.*
- *What does TD's investment banking group focus on?*
- *Walk me through a deal process step by step — what do analysts actually do at each stage?*
- *Explain the 3 core valuation methodologies. Which do you find most reliable, and when would you use one over another?*
- *Walk me through a DCF: how do you move from revenue to unlevered free cash flow?*

TD Securities

Investment Banking Analyst Summer Analyst

- *How would you explain unlevered free cash flow to a non-finance professional?*
- *If you could only use one financial statement, which would it be and why?*
- *What is a call option vs. a put option?*
- *Why do long-term bonds often trade at higher yields than short-term bonds?*
- *Assume three companies with P/Es of 10×, 9×, and 8×. Which do you invest in and what else would you want to know?*
- *Assume three companies with EV/EBITDA multiples of 10×, 9×, and 8× in the same industry. Which one would you buy and why?*
- *If all those companies re-rated to 9× EV/EBITDA, which would you rather own and why?*
- *If you were CFO, when would you prefer issuing debt vs equity?*

3rd Round

- *Tell me about yourself.*
- *What part of TD's culture stands out to you?*
- *Tell me about a time you simplified a complex process or resolved a conflict on a team.*
- *Walk me through a DCF in detail.*
- *How would you advise a company considering a dividend for the first time?*
- *Take me from UFCF to LFCF.*
- *Under what circumstances could Equity Value > Enterprise Value?*
- *When would you use EV/Revenue vs. EV/EBITDA?*
- *Company A (10× P/E) acquires Company B (8× P/E) in an all-stock deal. Is it accretive or dilutive?*
- *What premium would an acquirer likely pay in that case?*
- *If Enterprise Value = \$100 and Debt = \$400, what's Equity Value?*
- *If given \$100 today or \$1 annually forever, which do you choose? What if that annuity grows at 5% annually?*
